222/2023 Highway matters

- a) to receive an update on plans for a chicane at the East Entrance – a letter and a plan of the proposed road narrowing has been sent to residents close to the proposed site seeking their opinions. Nine positive responses have been received and also 2 or 3 with concerns, particularly around pedestrian access, access for larger vehicles particularly emergency vehicles and access to drives and lanes around the site. It was suggested that a chicane may be

more effective in slowing the traffic than a road narrowing and the general consensus was that this would work better. The cost for a chicane would be similar. The Chair to seek a design for a chicane.
